PROFILE SUMMARY

Innovative Computer Science Engineer with a passion for problem solving and a commitment to continuous learning and improvement

SKILLS

Programming Languages	Python
Frontend Technologies	React.js, HTML5, CSS3, JavaScript, Redux
Backend Technologies	Django
Databases	MongoDB

EXPERIENCE

Intern at SmartKnower

May 2022 - Jun 2022

Worked on a project called "Hand gestures Identification." This actually helps to identify the hand gestures and convert them into text. Which actually helps the conversation with deaf and dumb people in online meeting. We generated an AI using Machine Learning and neural networks

PROJECTS

Online Food Order System (Full-Stack Web Application)

An online food ordering system allows customers to browse menu, place orders, and pay for meals through a website.

Technologies Used: Frontend (React.js), Backend (Django), ChatGPT Integration

Intrusion Detection System- (IoTBot)

With the rise of smart devices, IoT network face increased cyber attack risks, necessitating effective intrusion detection systems (IDS).

Technologies Used: python, neural networks, IoT dataset.

Application Of Sequential Pattern Mining

Pattern mining identifies useful patterns in data for better interpretation and prediction, leveraging refined sequence mining algorithms.

Technologies Used: Java

EDUCATION

SRM University AP

Bachelor of Technology in Computer Science and Engineering

(Sept 2020 - Jun 2024)

CGPA: 7.47

CERTIFICATIONS

Citizen Data Science (Python)

Infosys

Data Science Foundation

Infosys

Artificial Intelligence Primer Certification

Infosys
